Using prescription medication when it is not prescribed to you
IS JUST AS DANGEROUS AS USING AN ILLEGAL DRUG

1 IN 15 PEOPLE who take non-medical prescription pain relievers WILL TRY HEROIN

Some prescription medications are highly addictive due to the way the body adapts to the drug

Overdose deaths from prescription drugs have TRIPLED in the last 10 years

In 2014, opioids were involved in 61% OF ALL DRUG OVERDOSE DEATHS
