

# PROMOTING ATTENDANCE DURING DISTANCE LEARNING

## FIVE KEY AREAS

1

### CONTACT

Update and maintain current contact information on students and their families.

2

### CONNECTIVITY

Students need internet access, proper equipment and training on utilizing online learning platforms to participate in distance learning

3

### RELATIONSHIPS

Strong relationships with caring adults and educators are key to keeping students and families involved in school and learning

4

### PARTICIPATION

Schools and districts should track whether students participate in online classes or access other remote learning.

5

### CHRONIC ABSENCE

Monitoring chronic absence really matters. When schools track absences they can see if extra support and enrichment is needed to ensure academic success.
